Your Psychic Intuitive Assessment

Look at your final total of "Yes" answers. Do all, or most of them, fall into one of the following group of numbers? If so, this will give you a good idea of what kind of psychic intuitive gifts you are most likely using at this time. It may just be one, or a combination of two or three different abilities.

These categories are not all inclusive. They are the four dominant psychic abilities that include the use of the main four dominant Clair-abilities of psychic seeing, hearing, feeling, and knowing.

1, 3, 7, 8, 12

You are an EMPATH.

The ability to literally *feel* for someone else is a finely tuned empathic sense. It gives you the psychic ability to read a person's aura and interpret the information back to him/her/they. It can bring you amazingly close to others as you can sense their true emotional needs with unerring accuracy. People may be drawn to you like magnets. But avoid absorbing other people's problems as it is easy to get burned out.

You are a CHANNELER.

Accessing information and/or energy from a higher level of consciousness is often called Channeling. There is no sense of contact with an individual entity; rather there is a connection to higher spiritual forces. Whatever your age, you are viewed by others as an "old soul." You are often sought out for the spiritual insight that you have built up over many lifetimes.

11, 14, 15, 17, 19, 20

You are a MEDIUM

If you have been aware of an unseen presence, or a ghost, you could be mediumistic. You may have also felt the presence of angelic or earthly spirits, which act as guardians for you. You can look into other dimensions, such as astral worlds or the spirit world. This vision is a rare gift.

4, 5, 6, 9, 13

You are a SHAMAN.

As you are vividly aware of nature and the spirit in animals, plants, and trees, your style of psychic energy is shamanistic. You derive a highly tuned sense of danger from your intrinsic link with wild animals. This is a great asset- your intuition literally saves lives. You can sense impending danger in all situations, whether it is on the sidewalk, in traffic or in the workplace. You may also have the natural Healing ability- an innate sense of what will harm or help someone who is ill.
